Project 1 Rubric:

Project 1 Rubric (100 points total)

1. Functionality (50 pts)

Criteria	Points	Description
End-to-end app works correctly	15 pts	App loads successfully and core workflow functions without crashes or blocking bugs. Users can view captions, interact with the app, and complete the intended flow.

Criteria	Points	Description
Database integration (Supabase)	10 pts	App correctly connects to Supabase, fetches data, and mutates data.
Authentication and route protection	10 pts	Login/logout works correctly. Auth-gated functionality is properly protected and visible only when appropriate.
Voting (data mutation) works correctly	10 pts	Users can vote and votes persist correctly in the database. Proper handling of logged-in vs. logged-out users.
Deployment and production readiness	5 pts	Successfully deployed on Vercel. App loads reliably via public URL. No deployment-blocking errors.

Functionality Subtotal: 50 pts

2. UI / UX (20 pts)

Criteria	Points	Description
Visual design and layout quality	10 pts	Clean, readable, and visually appealing layout. Reasonable spacing and styling.
Usability and intuitiveness	10 pts	Easy to understand and navigate without clear instructions. Clear affordances and logical flow.

UI / UX Subtotal: 20 pts

3. Feature Completeness (15 pts)

Criteria	Points	Description
Required features implemented correctly	10 pts	All required features are present and behave as expected in the live app.
Proper API and backend integration	3 pts	App clearly uses Supabase and required APIs correctly. Data is not hardcoded or simulated.
No shortcuts or broken implementation	2 pts	No placeholder functionality or incomplete flows.

Feature Completeness Subtotal: 15 pts
